NOTIFICATIONS

No. 146.—The Secretary, Northern Group Conference of local bodies, has raised the question of according general permission to local bodies to pay contributions towards the expenses of Local and Municipal Group Conferences. The utility of conferences and the desirability of continuing them and spending public money on them have in this connexion been raised.

2. There are now two Advisory Committees composed of M.L.C.'s who are generally connected with local bodies to advise the Government in regard to matters relating to Local and Municipal and Public Health Administrations. These Committees are consulted by the Government on any important question of policy. Any local body which desires to initiate a reform can bring it to the notice of the Government either directly or through one of the M.L.C.'s on the Advisory Committees or in the Legislative Council itself. The Government are therefore inclined to think that the holding of the annual Group Conferences and the incurring of an expenditure on them by local bodies require strong justification, especially in the present state of finances of many of the local bodies. Before arriving at a final decision in the matter the Government desire to be placed in possession of the views of local bodies upon it.

Presidents of District Boards and Chairmen of Municipal Councils are accordingly requested to place the question before their Boards and Councils and submit to the Government copies of their resolutions with their own views in the matter. Presidents of District Boards are also requested to obtain the views of Taluk Boards and their Presidents and forward them to Government.

Fort St. George, February 28, 1924.

[Anti rabic treatment—Concessions to patients].

No. 153.—It has been brought to the notice of the Government that a certain officer in the Madura district despatched three patients to the Pasteur Institute, Coonoor, for anti-rabic treatment instead of to the nearest headquarter hospital on the ground that the patients specially desired treatment at the Institute. Rule 9 of Appendix I to G.O No. 1690, P.H., dated 6th December 1922 (published on page 88 of Part I-A of the *Fort St. George Gazette*, dated 20th February 1923), lays down that in such cases the expenses involved should be borne by the patients themselves. The grant of special concessions in these cases is unauthorized. All officers empowered to grant such concessions are warned that they will be required to make good the loss to the Government caused by the grant of concessions in contravention of the rules on the subject.

Fort St. George, February 15, 1924 (G.O. No. 408, L. & M.).

No. 154.—The following draft of the rules which the Government propose to issue under sub-section (1) of section 44 and clause (viii) of section 25 of the Madras Village Panchayat Act of 1920 for the control of certain communal poramboke, is published for general information under section 44 (3) of the same Act.

Any objection or suggestion which any person interested therein may desire to make will be considered, if submitted to Government so as to reach them not later than fifteen days after the publication of this notification.

DRAFT RULES.

Rule 1.—When a panchayat desires to assume control of any communal poramboke within its jurisdiction it shall pass a resolution to that effect. The resolution shall embody—

(*a*) the survey number or numbers, the boundaries and extent of the poramboke;

(*b*) the purpose for which the poramboke is used; and

(*c*) a list and description of the trees standing on the poramboke.

Rule 2.—A copy of the resolution shall be forwarded to the Revenue Divisional Officer who after verification shall transmit it with his remarks to the District Collector. The District Collector may, if he approves the transfer, notify his approval of the resolution in the District Gazette specifying the date from which the transfer is to be effected. The panchayat shall maintain a list of poramboke so notified. The District Collector may, by notification in the District Gazette after giving the panchayat an opportunity to show cause to the contrary, withdraw, from the control of the panchayat, any poramboke which has been transferred to panchayat management.

Rule 3.—The panchayat shall, except in cases where the District Collector directs otherwise, be entitled to the usufruct of trees other than patta trees standing on such porambokes as also to the sale-proceeds of windfalls and withered trees on such poramboke on condition that it is willing to guarantee to the Government the average lease value of trees standing on the porambokes transferred and under lease during the five previous years.

Rule 4.—So long as a panchayat exercises control over the trees on any communal poramboke, no fruit-bearing trees on such poramboke which has not already been granted on patta shall be granted on patta without the consent of the panchayat.

Fort St. George, February 19, 1924 (G O. Misc. No. 427, L. & M.).

No. 155.—It has been brought to the notice of Government that the expenditure incurred by some of the taluk and district boards on the payment of travelling allowance to schoolmasters has been on the increase in recent years. In the present financial stringency of many of the boards the need for the strictest economy in this as in other directions is obvious. Presidents of local boards are advised to see that transfers of teachers are reduced to the minimum and made only on evident public grounds. If transfers are made at the request of the teachers themselves, the teachers concerned should not be paid any travelling allowance from public funds.

Fort St. George, February 13, 1924 (G.O. No. 387, L. & M.).

No. 156.—Rule 140 of the Local Boards Manual and rule 46 of the Union Manual require that local boards should obtain the sanction of the Treasury Deputy Collector to the audit branch for the payment of all claims not presented within six months of their becoming due. With effect from the 1st December 1923, however the Treasury Deputy Collector's audit of local boards' expenditure has been replaced by the audit under the control of the Examiner of Local Fund Accounts. Further under G.O. No. 2136, L. & M., dated 27th September 1923, the presidents of local boards now draw money by cheques instead of by bills as hitherto and the accounts should be prepared and maintained by the boards themselves.

2. In these circumstances presidents of local boards should themselves investigate claims which are presented after six months from the date on which they become due and make payments on their own responsibility. All claims however will be scrutinized when the accounts are audited.

3. Rule 140 of the Local Boards Manual and rule 46 and instruction (124) of the Union Manual will accordingly be cancelled. The appended notification will be published in the *Fort St. George Gazette*.

NOTIFICATION.

The following draft alterations in the Local Board Rules and Union Rules issued in G.Os. Nos. 70-70-A, L., and 69, L., dated the 24th January 1920, and published on pages 19-25 of the *Fort St. George Gazette*, dated the 27th January 1920, which the Government propose to issue under section 199 (1) of the Madras Local Boards Act, 1920, are published under section 200 (*a*). They will be further proceeded with six weeks after the date of publication of this notification.

N.B.—Should the number of candidates who have applied to be examined at any one of the above centres fall short of *fifty*, the candidates that selected that centre must be prepared to proceed, at their own expense, to the nearest centre where the examination may be held. Timely notice will be given to the candidates concerned.

If a candidate who belongs to one Native State selects a centre in another Native State, he should submit his application for admission to the examination through the educational authorities of the State to which the centre selected belongs, so that they may have an opportunity of disallowing the selected centre and directing the candidate to select a centre in the State of which he is a resident. When objection is not taken, candidates may conclude that their names will be registered for examination at the centres mentioned by them in their applications.

3. No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no candidate will be allowed to name more than one centre. No candidate will on any account be allowed to change the place of examination entered in his application, *which must invariably be the place where he is employed or ordinarily resides or should if not be a centre, the place nearest to it where the examination is held.* A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination annulled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examination in any of the subjects mentioned at any other place, if he is satisfied that not fewer than *fifty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 15th February. Ordinarily, however, only one place will be constituted a centre for each district.

5. The oral and practical examinations in Typewriting (Higher grade) will be held at those places only where satisfactory arrangements can be made for the conduct of such examinations.

6. Candidates whose examinations, either written or oral and practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

7. Heads of institutions are requested to see, before the certificate at the foot of the application is signed by them, that their institution has been recognised by the Director of Public Instruction, Madras, or by the Director of Industries, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades in them brought up by their *pupils*.

N.B.—Heads of institutions recognized for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical examinations.

8. All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no application of any *private* candidates being enclosed with these applications.

9. Candidates must send in their applications made out in English on *printed forms so that they may reach the Commissioner's office on or before the 28th February, after which date no application will be received.* Only one form of application should be used by each candidate, although he may bring up both Shorthand and Typewriting.

10. Candidates in the mofussil should obtain the required application forms from the treasury of the taluk in which they are resident or of the district to which they belong. Candidates in Mysore, Hyderabad, Travancore and Cochin States should obtain the same from the Resident's Treasury and those of Pudukkottai from the Political Agent for Pudukkottai Trichinopoly. Candidates who are residents of Madras should apply for application forms at the office of the Commissioner for Government Examinations, Cathedral Post office (Madras), and not to the Collector of Madras.

N.B.—No notice will be taken of any application from candidates in the mofussil requesting to be supplied with application forms from this office.

11. The following is the scale of fees to be paid by candidates for admission to the examinations :—

	Lower.	Higher.
	Rs.	Rs.
For each subject	6	12

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

12. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Imperial Bank of India, and the receipt given by the Treasury Officer or the Imperial Bank

of India attached to the application, which must in every case reach the Commissioner's office on or before the 28th February. *On no account will the fees be received in the Commissioner's office whether sent in cash or by Post Office orders. No application will be registered unless it reaches the Commissioner's office by the date prescribed.*

NOTE.—*At Madras, in the case of all pupils, the fees should be collected by the Headmaster and sent in a lump sum to the Imperial Bank of India together with a list giving details of the pupils, one of which will be retained by the Bank and the other signed and returned to the Headmaster. This latter list should be forwarded to this office along with the applications of the candidates. The necessary forms for this purpose will be supplied by this office to Headmasters on application.*

13. Each application should be sent direct to the undersigned, post-paid, superscribed and addressed as follows, the receipt for the fee paid *being securely fastened to it.*

[*Application for admission to the Government Technical Examinations.*]

To

The Secretary to the Commissioner for Government Examinations,
Cathedral Post Office (Madras).

N.B.—Candidates anxious to assure themselves that their applications have been received should enclose *an addressed post-card to their respective applications.* The post-cards should bear the sender's address only, and no other writing. Such post-cards will be returned to them in due course with the 'Received' stamp of the office impressed upon them. No other form of acknowledgment except that required by the postal rules regarding registered covers can possibly be given nor will any notice be taken of any letter from any candidate inquiring whether his application has been received. *Insufficiently stamped covers will be rejected.*

14. Candidates should write their names, their fathers' names and their house-names *distinctly and in full* in their applications and give their *address in full* also; if 'Other Hindus' they should state in column 8 of their applications whether they are 'Non Brahmans Caste Hindus,' 'Adi-Dravidas' or 'Adi-Andhras'. Applications defective in any particular will be returned.

NOTE.—*The occupation or profession of candidates, or the appointments held by them should invariably be stated in full in column 10 of their applications.*

15. *The fees paid will, in no case whatsoever, be refunded, nor will it be returned for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the calculation carefully and satisfy themselves before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if not sure, proceed, if there are degrees, beyond the limits of the examination centre selected by them, for the purpose of undergoing the Written or the Oral and Practical examinations.*

16. Subject to any change that it may be necessary or convenient to make in the arrangements, the Written examinations will be conducted in the order of time and subjects shown in the following table:—

II. THE SAMBASIVA PARVATHY PRIZE, 1925.

The prize for the year 1925, which may be in the form of money or books and may amount to about Rs. 400 or more, will be awarded by the Syndicate for the best essay or thesis on any topic connected with the Ancient Indian History by Graduates of the University of Madras. The Syndicate may grant a part only of the prize for a thesis not deemed worthy of receiving the whole prize, or may decline to award the prize on the ground of insufficient merit in the theses submitted. When two or more essays or theses are considered to be of equal merit, the prize will be divided among the authors.

3. The essay or thesis should be an original work done by the candidate. Essays or theses may be printed, typewritten, lithographed or written (but not in the competitor's own hand).

6. The successful thesis will, under the terms of award of the endowment, be published by the University, the exact mode of publication being determined by the Syndicate.

III. THE GOKHALE PRIZE, 1925.

1. This prize will be awarded for the best essay or thesis written on any topic connected with Indian Economics by Graduates in Arts of the University of not more than five years' standing who have been born and are resident within the territorial limits of the University.

2. The value of the prize is at present Rs 500. The prize will be awarded in 1925 and essays therefor should be submitted to the Registrar before the end of February 1925.

3. The essay or thesis submitted should have been prepared solely for the purpose of competing for the prize and should not have been published in any manner previous to submission. Each competitor for the prize must forward with his essay or thesis a declaration that the above conditions have been observed.

4. While competitors for the prize have a unrestricted choice of subject within the limit of Indian Economics, the following suggestions (section 5) on suitable topics and the methods of presentation are offered for the guidance :—

5. The Economics of a particular industry in a particular locality.

(i) A candidate taking this subject should confine himself mainly to a locality so limited that he can become personally acquainted with the whole of it, though illustrations of particular points drawn from published reports relating to other localities may well be used. The candidate should investigate family budgets and working conditions of typical families and endeavour to throw light upon the recent history and prospects of the industry and of those engaged in it.

(ii) The economic conditions of a particular agricultural district either with special reference to some agricultural problem of general importance (e.g., Fragmentation and Excessive Subdivision of Holdings) or with reference to some important local problem such as that of house sites for Adi-Dravidas in the Tanjore delta, or the Advantages and Disadvantages of Marumakkattayam on the West Coast.

(iii) The economic conditions and problems of some particular caste or defined body of workers in either an urban or rural area, the object aimed at being an investigation similar to that of Mr. Arthur Davies into Anglo-Indian families in Madras, or that of Dr. Harold Mann into Untouchables in the villages near Poona.

Competitors are not excluded from the choice of other subjects but should select only such as are of sufficiently manageable dimensions as to permit of the production of essays and theses of possible value.

Competitors are warned that essays and theses which do not *either* contain new facts or new interpretations of previously known facts, *or* present such regroupings of facts and ideas as make clearer than before some point of economic interest will not be considered of merit sufficient to justify the prize.

6. All essays and theses for University prizes shall be forwarded to the Registrar by the prescribed date by registered post. No essay or thesis shall bear upon it the name of the competitor or anything whereby his identity can be ascertained by the persons to whom it is to be submitted for examination. Each essay or thesis for a University prize shall be headed by a motto or a *nom-de-plume* selected by the competitor and shall be accompanied by a sealed cover bearing on the outside

the competitor's motto or *nom-de-plume* and containing his name, designation and address and a signed declaration that the essay or thesis has been prepared solely for the purpose of competing for the prize and has not in any manner been previously published. Essays or theses may be printed, typewritten, lithographed or written (but not in the competitor's own hand).

GOVERNMENT TRAINING SCHOOLS, MADRAS DISTRICT.

The District Educational Officer, Madras district, hereby notifies for the information of the other District Educational Officers and Deputy Inspectors of Schools and the managers of aided schools that candidates of the Elementary grade will be admitted for training in 1st July 1924 in the Government Training Schools under his charge as shown below :—

Name of Institution.	Number of stipends available.		
	Elementary Higher.	Elementary Lower.	Total.
(1) Government Higher Elementary Training School for Muhammadans, Madras.	40	40	80
(2) Government Training School, Mint Buildings, Madras.	30	40	70
	..	40 for Adi-Dravidas.	40

2. The period of training is two years in the case of the students of both the Elementary Higher and Lower grades.

3. The District Educational Officer, Madras, will make the selection on the recommendation of the inspecting officers.

4. Inspecting officers are requested to forward two lists, one of selected and the other of rejected candidates.

5. The lists of selected and rejected candidates should be forwarded to the District Educational Officer, Madras, by the inspecting officers before the 22nd May 1924. The names of selected candidates should appear in the list in the order in which the inspecting officers wish they should be taken, i.e., they should be selected in reference to their general educational attainments, their service as teachers, the need for their training and the nature of their appointment and the school from which they apply for training. Candidates who do not satisfy the condition of age-limit under rule 114 of the Madras Educational Rules should not, except in very special circumstances, be included in the list and the selection should be regulated, as far as possible, by rule 115. In the case of rejected candidates, the reasons for rejection should invariably be mentioned against each.

6. In provide for the contingency of some of the candidates selected not joining the training school, a few more than the sanctioned number will be selected by the District Educational Officer. All selected candidates who present themselves at the training schools on the opening day will be admitted; those who present themselves later will be admitted in the order in which they present themselves, but only up to the number of announced vacancies.

7. The list should not generally include anyone who has not been a teacher before or concerning whom there is a doubt whether he really intends to make teaching his profession.

8. In the selection of candidates for training, those who were awarded stipends last year, but were refused admission on account of their not appearing in time, may have a first claim for admission.

9. In addition to Provincial stipendiaries, candidates whose stipends are paid by Local or Municipal Boards, will be admitted for training, as also private candidates as free students. No provincial stipends will be sanctioned for teachers who hold permanent appointments in Board and Municipal schools, or sub. *pro tem* appointments in permanent vacancies or who have been given provisional appointments by Presidents of local boards who employ them. In the case of these teachers, clear references should be given in the application regarding the nature of the appointment held by them (permanent, temporary, sub. *pro tem* or acting as the case may be) and whether the Presidents of the local boards concerned are prepared to pay stipends on behalf of the teachers recommended by them. The applications of these candidates should invariably be signed by the Presidents of the local boards or Chairman as the case may be.

10. As regards the qualification for admission only those candidates who have passed the annual examinations of the Third Form or have been awarded an Elementary School-Leaving Certificate at the eighth standard are eligible for admission into the Elementary Higher class, and only those who have passed the late Primary School examination or a corresponding public or school examination or whose attainments in the opinion of the inspecting officers are not lower than these, are eligible for admission into the Elementary Lower class. Preference should be given, as much as possible, to candidates whose educational attainments are above these minimum requirements. The certificate of general education should be sent in original with the application. The certificate of physical fitness need be produced only by the candidates chosen as stipendiaries. Separate medical certificates need not be submitted by candidates whose applications are signed by an inspecting officer.

Notice is hereby given that the Superintendent will hold an auction at the Central Jail, Vizagapatam, at 2 p.m. on Saturday the 22nd March 1924 for the supply of the following articles of rations during the year 1924–25. Intending bidders are requested to be punctual. (With the approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors.) 11. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also cancel it, recovering all losses sustainable by the Jail in consequence of the annulment, from the security deposited by the contractors, or other moneys due to them, and, in the event of any residue, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

AUCTION FOR SUPPLY OF RATION ARTICLES TO THE CENTRAL JAIL, CANNANORE.

Notice is hereby given that the Superintendent will hold an auction at the Central Jail at Cannanore at 11 a.m on Saturday the 15th March 1924 for the supply of the following articles of rations during the year 1924-1925. Intending bidders are requested to be punctual. In the case of suppliers who may be unable to attend the auction, sealed tenders will be accepted, provided they reach the Superintendent on or before the day and hour mentioned above and are accompanied by the earnest money specified in the schedule. Tenders, which will only be received in printed forms to be had free of cost on application, should be superscribed "Tender for the supply of ration articles to the Central Jail, Cannanore." They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and annas per rupee for delivery at the Central Jail, Cannanore, the quantities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid or tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. Successful bidders or tenderers will be required to enter into stamped agreements with the Jail within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should, before signing such agreements, deposit a security of 10 per cent of the total value of the supplies undertaken (with the approval of the Inspector-General of Prisons, the total amount may be reduced in the cases of approved contractors). Failing compliance within

the time specified, the earnest money may be confiscated, and, in the event of withdrawal, they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the Jail. The earnest money received from successful bidders or tenderers will be taken towards their security deposits, and those from others returned at the close of the auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contracts should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, plus as much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the Jail except on a requisition signed by the Superintendent, or some responsible person authorized by him in writing to do so "by order."

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the Jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the Jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees, in which end annas forming part of the sum due on such bill will be disregarded, unless they constituted a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account.

9. During the prevalence of plague in the vicinity of the Jail or in that of the areas from which supplies are drawn, all grain, etc., will be liable to be first exposed to the sun outside before being taken in. Also if for any other reason the Superintendent considers exposition of articles to the sun necessary.

10. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply a memorandum or advice note, duly signed, showing the number or quantity tendered for acceptance. Also to sign and return, within a week of payment by cheque, cash order or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent, separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any differences in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it, recovering all losses sustainable by the Jail in consequence of the cancelment, from the security deposited by the contractors, or other monies due to them, and, in the event of any residue by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

13. Further information on any point concerning this notification can be had from the Jail office.

14. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent and to the Inspector-General of Prisons will not be considered.

Tenders, which will only be received on printed forms to be had free of cost on application, should be superscribed "Tender for the supply of rations and miscellaneous articles to the Borstal Institution, Tanjore". They will be opened at the time of auction and the offered rates considered along with the bids. Failing compliance within the time specified, the earnest money may be confiscated and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the jail. 5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, *plus* so much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. Contractors must submit to receive payment of their bills in whole rupees, to which end annas forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account.

9. Also to sign and return within a week of payment by cheque, cash order, or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent, separately, but are not to be made an excuse for delay or refusal to sign.

11. In addition to any difference in prices that may be recoverable from contractors on account of purchase rendered necessary elsewhere by failure, neglect or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or other just liable reasons, he may also cancel it, recovering all losses sustained by the Jail in consequence of the cancellment, from the security deposited by the contractors, or other monies due to them, and in the event of any residue, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it, recovering all losses sustainable by the Jail in consequence of the annulment, from the security deposited by the contractors, or other monies due to them, and, in the event of any residue, by legal measures, if so advised.

12. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

SPECIFICATION—EARTHWORK.

1. *Removal of bushes and trees.*—The first thing to be done is to remove bushes and prickly-pear. All trees which have to be removed should be cut down and disposed of as directed by the Sub-Divisional Officer.

2. *Levels.*—When the mistri reports that the above rule has been complied with, the Overseer will fix the levels on palmyra posts or sunkeries 12' into the bank. The top of the post will indicate top of bank at that point In fixing the level of posts an allowance of 2" is to be made for settlement for every foot of raising. The toe of the rear slope of the proposed bank should then be lock spitted. Close to but clear of each level peg, model earth sections should be put up before any other earthwork is started. They should be made of earth well watered and rammed and they should be either turfed or granulated. They should be not less than 4½' wide. At each visit the Overseer should see that earth sections are constructed for a length long enough to provide the contractor for at least a month's work.

3. *Earthwork.*—Wherever earth has to be laid the bank should be benched to steps 1½' to 2' high according to the amount of raising. When this is done, earthwork may be commenced. Pits should be marked out by the Overseer. They should be chosen in good soil at least 45' from at the toe of bund and should as far as possible be of uniform width This will facilitate measurement and tend to check the possibility of fraud. The earth should then be thrown up in 6" layers to full section of bund and watered and tamped, if so specified The work shall be gone in accordance with the plans.

4 *Revetment.*—Great care in selecting the best gravel for backing is required. If good gravel is not available, stone jelly may be used. The thickness of the revetment must always be made up of one stone and all the bed joint should be at right angles to the face of the revetment. Whenever repairing old stone is allowed in the estimate it should be done before any new stone is used.

5. *Payments.*—Payments for earthwork will as a general rule be based on pit measurements. The Overseer should however take a longitudinal section both of the bank before the work is commenced and after it is completed. This will act as a check on pit measurements. When owing to submergence of pits bank measurements have to be taken 15 per cent deduction must be made from them to allow for the excess over pit measurement.

6. *Excavating foundations and refilling.*—Cutting open banks and excavating foundations are not to be put up in hand till all the materials have been collected for small works such as sluices. For large works at least half the materials must be collected. At such work a solid masonry or concrete bench mark must be fixed and the contractor given a statement in writing regarding the depth of foundations below this B. M laying of foundations must not be commenced until they are inspected by the Overseer in case of small works and by the Subdivisional Officer in the case of large ones. In

deep cuttings such as tank sluices, the banks must be sloped back to a slope of ¼ or ½ to 1 or to such slope as will obviate the possibility of an accident from falling earth. Refilling will be done in layers and will follow the superstructure; being kept 1'6" below the top of the masonry while the work is in progress in order to avoid disturbing the top courses while tamping. It is most important that the tamping should be very thoroughly done. No materials to be stacked within a distance equal to 1½ times the depth of cutting for foundations.

7. *Concrete.*—Will as a rule consist of stone broken to pass through a 2" ring in the proportion of 3 broken stone to 1 mortar. The mortar to be made in the proportion of 1 lime to 3 of sand and when surki is used 1 lime, 1½ *sand*, ½ surki. These proportions may be modified by special orders, from the Executive Engineer. The broken stone is to be well watted before being mixed with the mortar; mortar is to be first made and be mixed with the proper proportion of stone. The concrete is to be deposited by baskets in the trenches in 9" layers and rammed hard with wooden rammers. The work should be continuously done so that the lower layers may not set hard before the upper layers are put in. If, for any reason, a layer has set hard its surface should be well scored with a pick and the debris removed before another layer is put in. When a layer of concrete has been once rammed and has begun to set it should on no account be rammed again. All concrete deposited on any afternoon should be rammed the same evening.

8. *Rough stone in mortar.*—No boulders to be used, and all stones to be broken with *hammers*. Every fourth stone to be a through stone for walls 2'0" and under. For walls of greater thickness than 2'0" every fourth stone to be at least 2'0" long. Every stone must be laid so that its vertical depth does not exceed its length or its breadth. All interstices to be filled with quarry chips tightly packed in mortar, the mortar to consist of the proportions laid down for concrete, all stones to be well watted before being used.

9. *Burnt bricks in chunam.*—The stone will be obtained roughly squared, all irregular shaped stone to be rejected. The work will be built in courses, the thicker courses to be towards the bottom of the wall. Every third course must be brought up to level throughout. In other respects the specification for rough stone in mortar is to be observed.

10. *Lime.*—Must be freshly burnt and slacked. It must be carefully screened and stored in dry sheds.

11. *Surki.*—Should be prepared from under burnt bricks of a clayey rather than a sandy nature. It should be screened as finely as possible and kept very dry.

12. Sand should be clean and sharp edged; there is no objection to its being coarse especially for concrete.

13. *Mortar.*—Should be *ground* in a mill worked by bullocks; for ordinary mortar from 60 to 80 revolutions will suffice and for surki mortar from 80 to 100 revolutions should be insisted on. Surki mortar should not be kept longer than the day following that on which it was made. All remaining longer than that time should be rejected.

14 *Pointing.*—Should follow the outline of the stones, and mortar should not be plastered over the faces which should be kept as clean as possible when building. Pointing and all fresh masonry work must be watered for 10 days after completion at the contractor's cost.

15. *Cut stone.*—Covering stones to have the side joints and ends resting on the masonry dressed. Platform, coping, vent and guide stones and all cut stones other than covering stones to be neatly dressed to size.

16. *Wood work.*—The rate for wood work includes tarring and iron work complete. All wood work to have two coats of tar. Needle shutters to have iron straps 1½" wide and 3/8" thick with outer edge flush with face and sides of the wood. The strap will be fixed 1½" below the top of the shutter and will be securely rivetted on. A hole 1½" diameter lines with iron will be bored just above platform level to facilitate working the shutters. The sides of vents must be dressed so that the shutters fit close.

17. *Bamboo stake work.*—The bamboos selected for stake work shall be first-class kanati bamboos of about 5" girth without excessive hollows (i.e.) must be solid. The pits shall be above 6' deep each and driven not less than 2' into soil. They shall be driven 2' apart along the length of the channel and in two rows 2' apart. They shall be fixed in position by not less than one longitudinal waling piece for every 2' of height over the channel bed in each row. The space between shall be filled with babool or other brush wood laid in bundles and closely packed down and when the full depth has been so filled it shall be kept in place by cross walings between the two rows of stakes. All walings shall be nailed on to the verticals with wire nails not less in length than twice the diameter of the pile and no ropes or strings shall be used.

18. *Clearing up site and general remarks.*—All surplus materials and debris to be removed from the worksite and the site thoroughly cleared by the contractor before the final bill is passed. If any additional work is required to thoroughly complete this work, the subordinate in charge must apply for permission to carry it out, stating the probable cost and whether it can be met from contingencies or savings. Any other work not mentioned in this specification to be done according to the standard specification of the Public Works Department. Contractors or piecworkers failing to comply with these will be liable to fine, to cancelment of their agreement and to forfeiture of deposit.

It is the contractor's duty to ask for and see that he gets proper bench marks and levels and all other instructions necessary for carrying out the work in accordance with these specifications.

The contractor must also see that he receives orders in writing. No attention will be paid to oral orders and any work which the contractor may do without written orders will be at his own risk. All labour and materials required for taking levels, putting up level posts or for any other purposes connected with setting out work must be supplied by the contractor at his own cost.

Executive Engineer, Kistna Central Division.

8. The successful tenderer must, within three days from date of receiving intimation that his tender has been accepted, execute a bond for the due fulfilment of the contract and lodge security, viz., 10 per cent on the total value of the articles, failing which his deposit will be forfeited to Government. CULTIVATION STATEMENT—APRIL TO DECEMBER 1923.

[On an average of the five years ending 1922-23, the area reported as sown in December 1923 represents 9 per cent on dry lands and 8 per cent on wet lands, the corresponding figures for the period April to December being 94 per cent on dry lands and 88 per cent on wet lands.]

General.—There was moderate rainfall in the first week of December in parts of the Carnatic and the South and in Chittoor and North Arcot. Heavy rains were received in the third week in the South, particularly in Tinnevelly and the Tambraparni rose in flood washing away houses and crops and causing breaches in several tanks. Elsewhere there was little or no rain in the month and the water-supply was insufficient in the Deccan, the Central districts, and on the West Coast. Transplantation of paddy was fairly general in the Carnatic and the South. Ragi was sown in Guntur, Cuddapah, Nellore, South Arcot, Salem, Trichinopoly, Madura, and Ramnad and tobacco planted in Godavari, Kistna, Guntur, and Coimbatore.

2. *Dry lands*.—The area sown in December 1923 was 18 per cent below the average and 23 per cent below last year as a result of the almost complete failure of the North-East monsoon. The reduction was general except in the Circars, Chingleput, South Arcot, and Coimbatore. The largest reduction was in the Deccan where less than half the average was sown. The rainfall in November facilitated late sowings in Guntur and South Arcot and the area sown exceeded the average by 25 and 45 per cent respectively. The deficit in the area sown from April to December as compared with the average and last year increased from 2 to 4 ½ per cent.

3. *Wet lands*.—The area sown in December 1923 was 12 per cent below the average and 24 per cent below last year. The reduction was most marked in Anantapur and the Central districts where tanks received little or no supplies in the North-East monsoon. On the whole the area sown up to the month though still 3 per cent above the average was less than the area sown in the corresponding period last year.

Under the Madras Children Act, as it stands at present, if the provisions of the Act have to be extended to any particular class or classes of children, young persons or youthful offenders, in any area, the whole Act has to be brought into force in the area; then provisions which are not intended to be extended to any of the classes have to be eliminated and lastly the classes other than the particular class or classes should be excluded from the operation of the remaining provisions. This is a circuitous method. The aim of the Bill is to adopt the direct method of applying the Act or any of its provisions when necessary to all or any of the classes of children, young persons, or youthful offenders in any area.
